Professional summary

Results-driven **Junior Software Engineer** and Engineering student specializing in Full-Stack Web Development. Proven experience leading technical teams ('Debuggers') and building complex web applications with JavaScript and Tailwind CSS. Focused on delivering high-performance, minimalist UI/UX solutions.

Education

Bachelor's in Computer and Communication Engineering | Mansoura University | Al Manşūrah

2024 – 2028

GPA 3.4

Courses

Machine Learning | National Telecommunication Institute (NTI)

Aug 2025 – Sep 2025

Front-End Development | Mansoura University

Jun 2025 – Jul 2025

Skills

Technical Skills: Frontend Development, Full-Stack Web Development, Data Analysis, Debugging and problem-solving, Writing clean, maintainable code.

Programming Languages: JavaScript, Python, Java, C, C++, HTML, CSS.

Frameworks and Libraries: React.js, Bootstrap, Tailwind CSS.

Tools and Technologies: Git, Docker, Visual Studio Code.

Soft Skills: Problem Solving, Continuous Learning, Attention to Detail, Adaptability.

Languages: Arabic *(Native)* **English** *(C1)* **French** *(B1).*

Professional Experience

- **Project Lead | "Debuggers" Graduation Project** (2026 – Present)

  - Spearheaded a 6-person team to develop a centralized project management dashboard.
  - Designed technical roadmaps and presentation scripts for academic supervision.

- **Full-Stack Developer | L'OSE Jewelry E-commerce Store** (December 7, 2025 – December 13, 2025)

  - Developed a "luxury aesthetic" responsive web application using Vanilla JS and Bootstrap.
  - Implemented LocalStorage for cart state management and persistent user data.

- **Machine Learning Developer | Chest X-ray Classification** (August 31, 2025 – September 25, 2025)

  - Trained a deep learning model using Keras and TensorFlow in Google Colab.
  - Optimized data preprocessing for medical image datasets.
